

217/782-6760

October 27, 1981

Mr Jerry Camfield  
Post Office Box 78  
Argenta, Illinois 62501

Dear Mr Camfield

Re Sites Allowing Trucks with Expired Hauling Permits onto Their Property

It has been brought to the attention of the Agency that a number of sites permitted to accept special waste (hazardous, industrial process, or pollution control waste) from haulers have been allowing trucks in with expired permits. As of October 1, 1981, unless the decal on the side of the truck has a yellow '82 sticker on it, the hauling permit has expired.

We draw your attention to the following quote from Chapter 9 dealing with the Special Waste Hauling Regulations (see enclosure)

Rule 302 Requirements for Acceptance of Special Waste from Haulers

- A No person shall accept any special waste for disposal, storage, or treatment within Illinois from a special waste hauler unless the special waste hauler has a VALID\* special waste hauling permit issued by the Agency under Part II of this Chapter

The Agency requests your compliance with the regulations by refusing entry into your facility by a hauler without a current permit

If you have already been following the above procedure, we appreciate your cooperation, if not, this letter should be considered a formal notice to again bring Rule 302 to your attention

If you have any questions, please direct them to Mr Steve Colantino of this office

Sincerely,

Gregory T. ~~Tal. Manager~~
